Activity 1 Part 1

# Privacy Screenshot

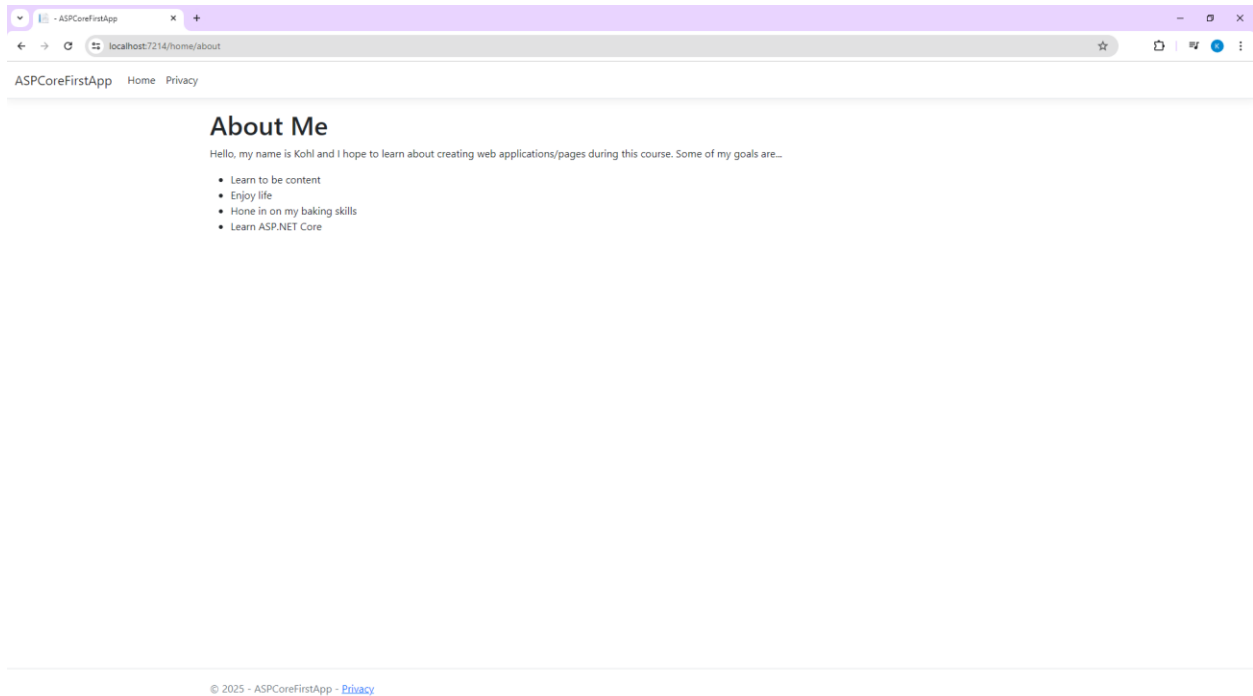

**Demonstrated:** Adding content to individual web pages

## 2<sup>nd</sup> Privacy Screenshot

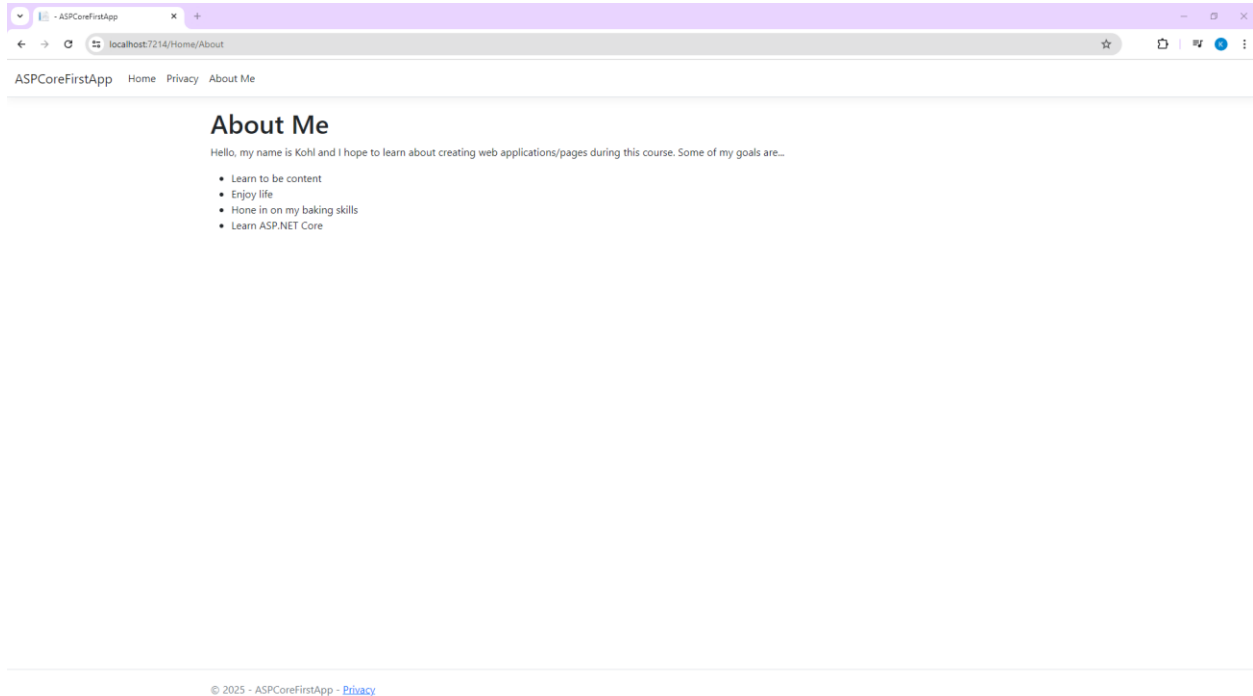

**Demonstrated:** Adding content to web page using ViewData.

# About Me

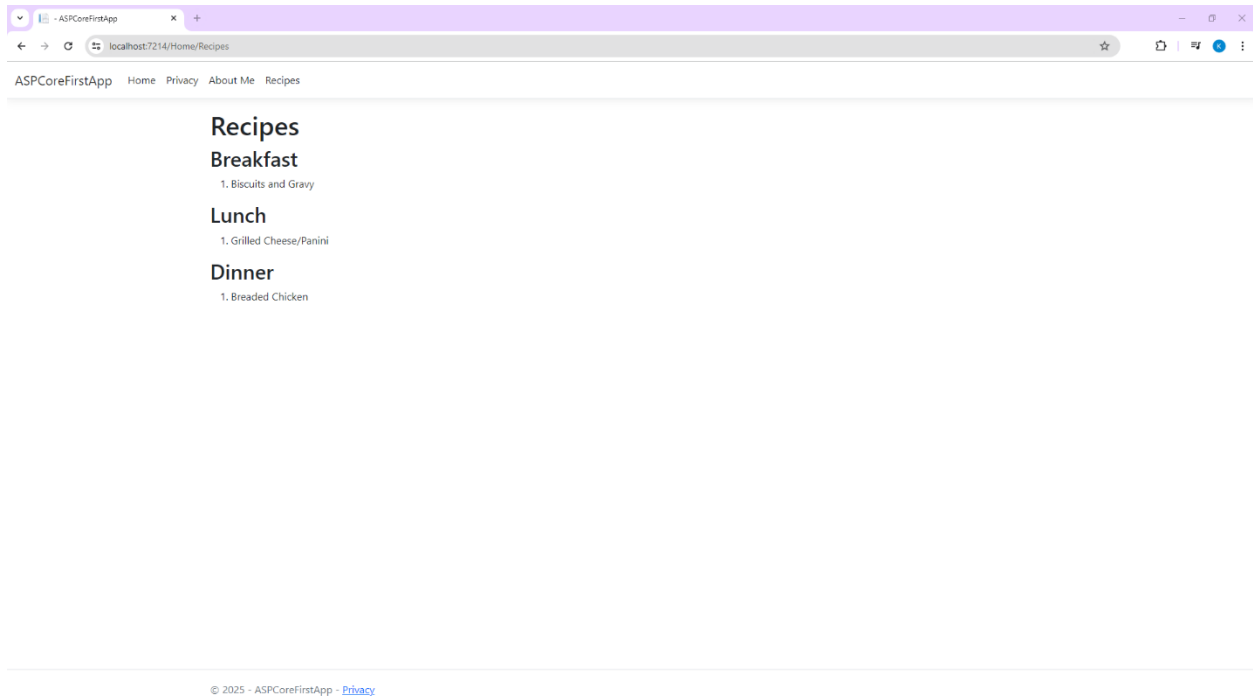

**Demonstrated:** Creating new web pages and navigating to them without creating a link in the navigation bar.

## 2<sup>nd</sup> About Me

**Demonstrated:** Added the link in the navigation bar.

# Recipes

**Demonstrated:** Creating new pages, adding content, the navigation bar link, and combining it all into a “functional” page. (minus the links to the individual recipes)

## Concepts Learned

Setting up a project for web applications, creating/adding content to be displayed, adding those new pages to the controller using Razor Views, and adding text content via ViewData.
